

ENGLISH С НОСИТЕЛЯМИ

Gordon Ashton Allison (centre) died of cancer in August 2022, just five months after the opening of 'Mr Gordon's English Language Academy'... Formerly GELC, the business originally operated from Gordon's enlarged Tashkent apartment, while he also worked a day job at Oxbridge International School... When the two remaining shareholders took control (renaming it 'Gordon's Academy'), there were many complaints about new work hours, disorganization, training materials, and amateurish marketing. I left this sinking ship on 10th March, 2023... However, I am grateful for the opportunity to have taught IELTS, being sent out to several High Schools.

The final, Facebook post (right) was made on 24/1/25. The previous business no longer operates. <https://www.facebook.com/mr.gordons.academy/>
